

3D ACTIONS #2

LEARN<http://www.ozonostudio.com>**ASK**ask@ozonostudio.com

1

For install the action all you need to do is open your zip file (**3D_generator.zip**) and double click on the **3D.atn** file, and you done! easy right?.

2

Create a new document on Photoshop with **2000x2000 px**, place in the center of the document your shape or text and resize it near to the edges.

3

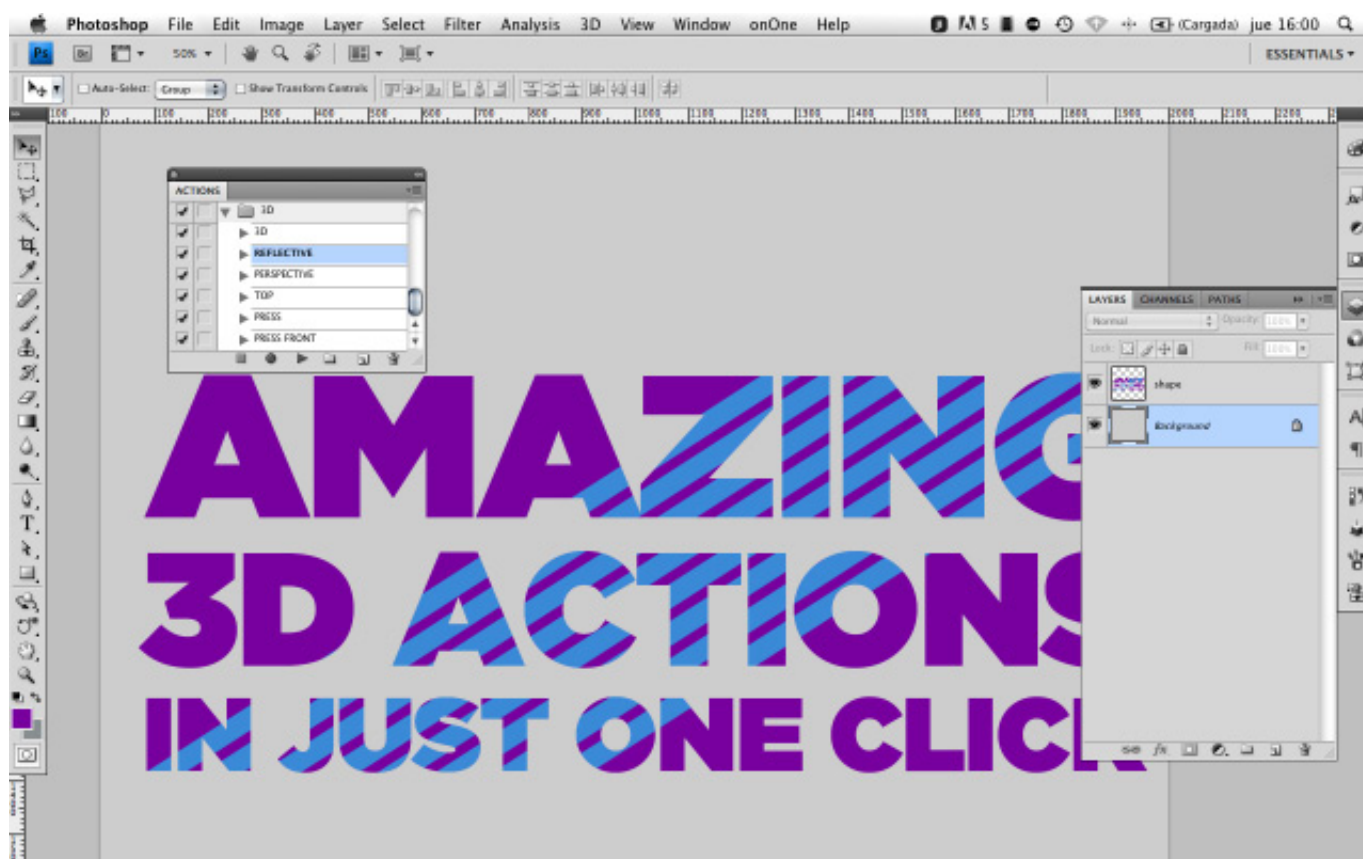

Make sure the layer of your shape has the name **"shape"** without the quotes and in lowercase.

4

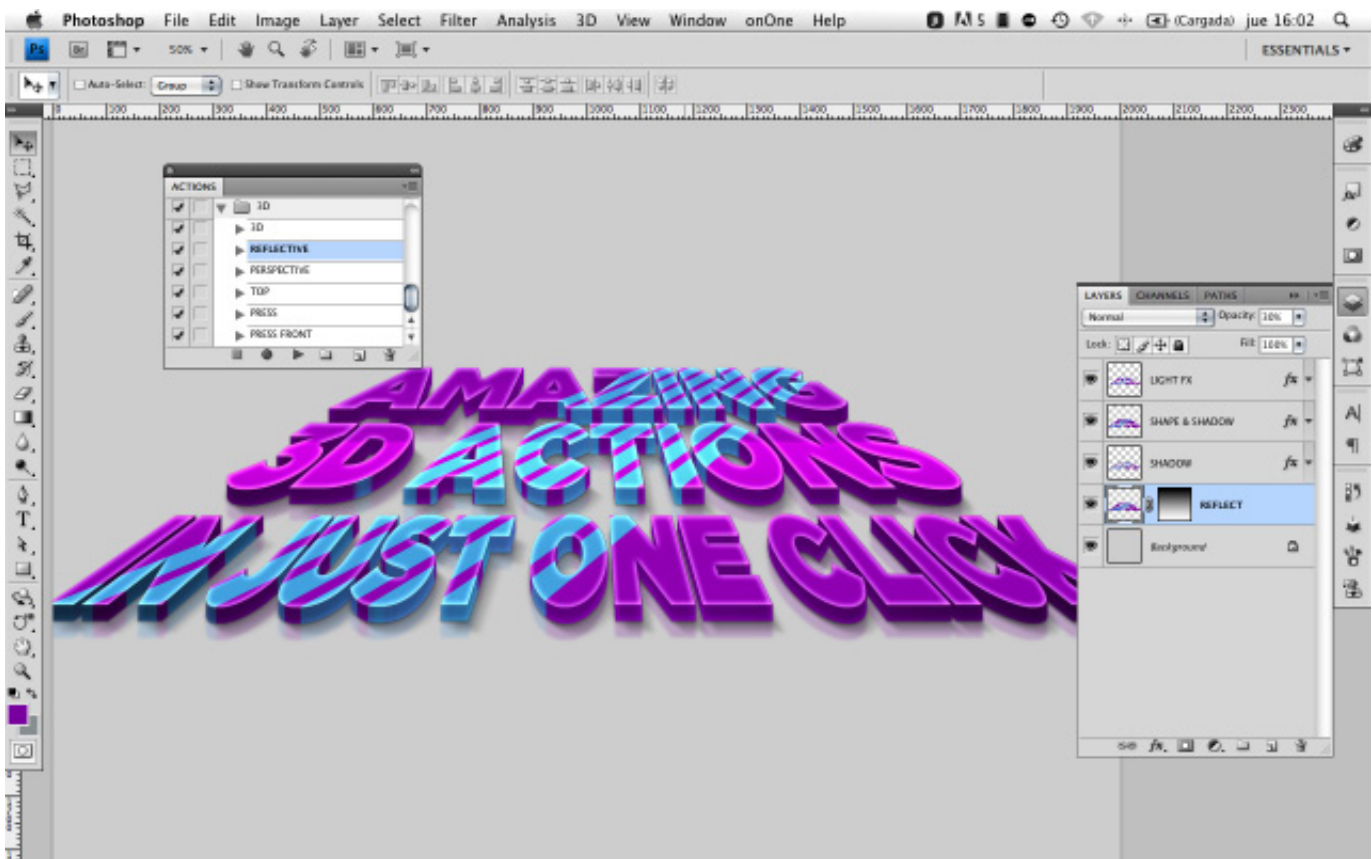

Now click on your desire action, press play and wait until it finish.

IF YOU ARE USING TEXT, TURN IT IN TO A VECTOR SHAPE FIRST OR RASTERIZE IT.
(RIGHT CLICK ON THE LAYER > CONVERT TO SHAPE OR RASTERIZE TYPE)

FOR TEXT STYLES, PLEASE REMOVE SHADOWS AND OUTER GLOWS, CREATE A NEW LAYER AND MERGE WITH YOUR TEXT STYLES.

3D ACTIONS #2

LEARN<http://www.ozonostudio.com>**ASK**ask@ozonostudio.com**5**

When the action finish you get your shape on 3D, and divided on layers, in that way you can add or remove effects to your shape.

The action create a new document named "3D" so, if you need change anything on your design, just close the 3D document and start again, without lose your master design.

6

If during the process, appear a window just click **ok**
