First and foremost, thank you for your purchase!

You're on your way to streamlining your workflow.

Installation

Place the folder Phoipsum and it's contents inside of… Applications/Adobe Photoshop CS4/Presets/Scripts/
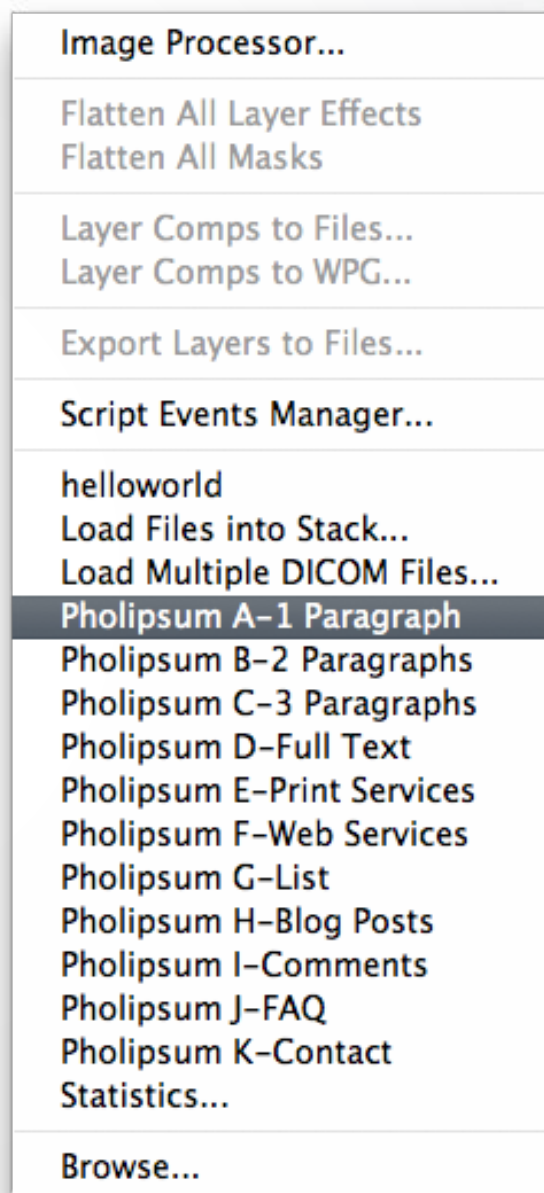

Restart Photoshop.

Usage

You do not draw a text box to use Phoipsum. In Photoshop, simply go to File > Scripts then select the script that you'd like to use (as shown in the screenshot.)

The script places the text in a box on a new layer. You can resize the text box to reveal more text.

That's it!

Thank you for purchasing this file.
