Basic Help

Photoshop File Edit :

- Open PSD file from PSD folder
- There are two group folder. ("Calendar Cover Page" and "Calendar Inside Pages")
- Open "Calendar Cover Page" group folder to edit cover page.
- **When you edit the cover page, you should visibility off "Calendar Inside Pages" group folder.**
to visibility off, Select the layers, right click on the "eye" and choose "Hide this layer"

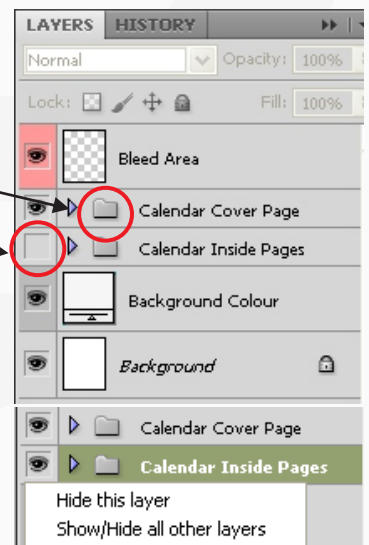

You need to replace your logo with **Your Logo Here**.

All texts in "Text" group folder. To change with your details, open "Text" group folder and add your details. then open "Year" group folder in "Text" group folder to change year.

To change images, open "Your Images Here" group folder and replace with yours.

If you want to change background colour, double click on  icon and change colour as you wish.

Memorial Wall Calendar

2014 | 2015 | 2016

Basic Help

- Open "Calendar Inside Pages" group folder to edit Calendar.
- When you edit the Calendar, you should visibility off "Calendar Cover Page" group folder.
to visibility off, Select the layers, right click on the "eye" and choose "Hide this layer"

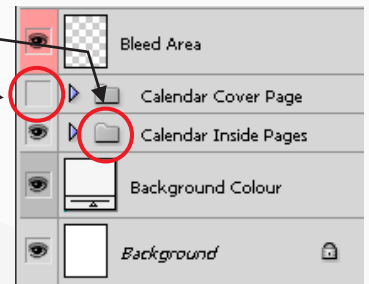

- You need to replace your logo with **Your Logo Here**.

- To change calendar, open "Calendar - 2014 / 2015 / 2016" group folder. there is no need to edit anything. just you need to hide and show some layers. so I have locked this group folder.

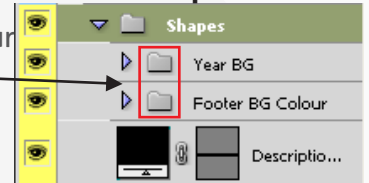

- All texts in "Text" group folder.

- Open "Shapes" group folder to change colour of Year and Footer background.

- To change colour schemes, Select the colour layer you want, then right click on the "eye" and choose "Show this layer". other colour layers should visibility off. to visibility off, Select the layers, right click on the "eye" and choose "Hide this layer"

Shapes

- To change calendar, open "Calendar - 2014 / 2015 / 2016" group folder.
- Firstly I'll explain how to make 2014 calendar. then you can create calendar for other years as same as 2014.
- Open "Year" group folder and select the 2014 year, then right click on the "eye" and choose "Show this layer". other layers should visibility off.

1 - 3 Months - **January** | **February** | **March**

4 - 6 Months - **April** | **May** | **June**

7 - 9 Months - **July** | **August** | **September**

10 - 12 Months - **October** | **November** | **December**

-Enable "1 - 3 Months" group folders to create 1st Page

-Enable "4 - 6 Months" group folders to create 2nd Page

-Enable "7 - 9 Months" group folders to create 3rd Page

-Enable "10 - 12 Months" group folders to create 4th Page

no need to change anything of "Week Days" group folder.

To enable, right click on the "eye" and choose "Show this layer". other layers should visibility off.

Double click on Smart Object Thumbnail to replace your images

- If you are going to create 1st Page of Calendar, you should enable "1 - 3 Months - YOUR IMAGE" layer only. other layers should visibility off.

- To add your image, Double click on Smart Object Thumbnail and it will open as new document. then replace you image and adjust it. then save and close.

- you can learn more about smart objects [here](#)

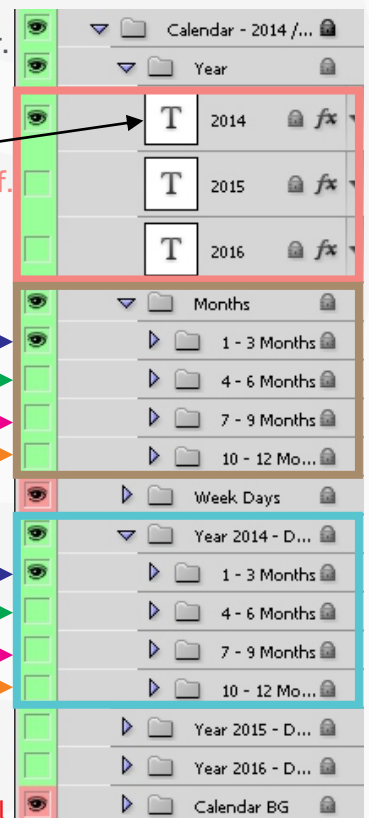

Enjoy with your new Calendar..!
