

HOW TO LOAD PHOTOSHOP ACTION

There are many ways to load a Photoshop Action and the easiest way is by [double-clicking](#) the ATN file. Once you double-click it, it will automatically open in Photoshop.

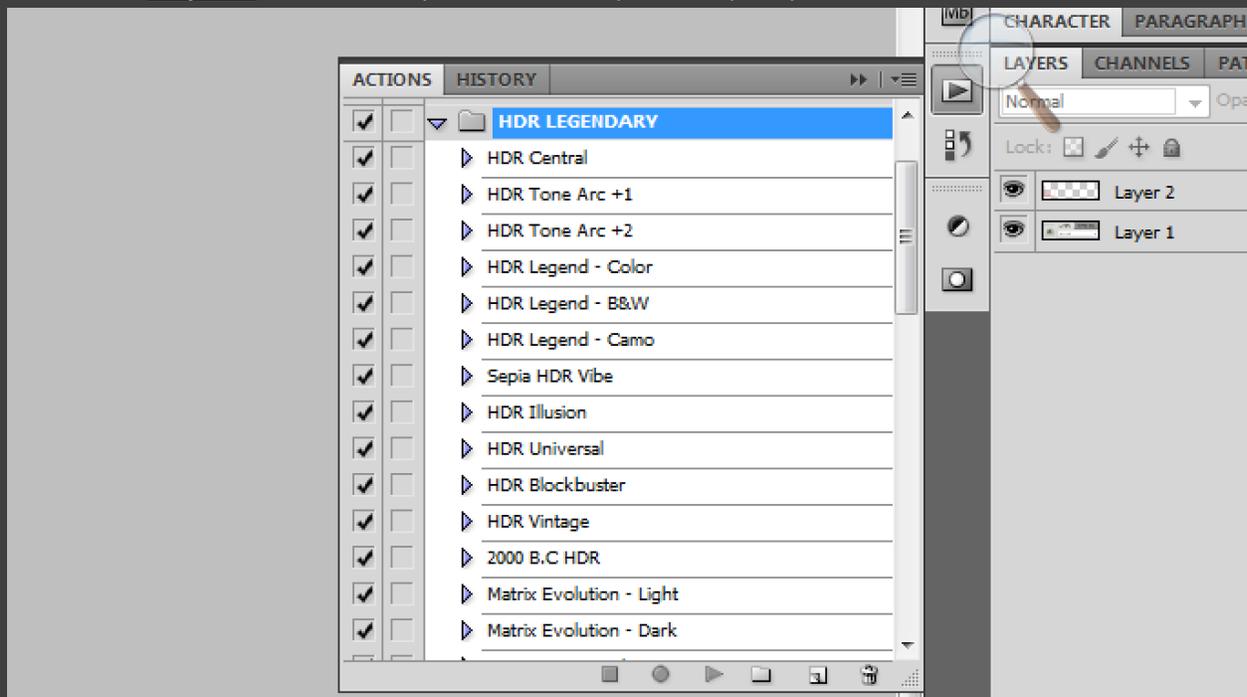

If the Action Panel is not yet open in Photoshop, kindly press [Alt+F9](#) or go to [Window](#) and click on [Actions](#).

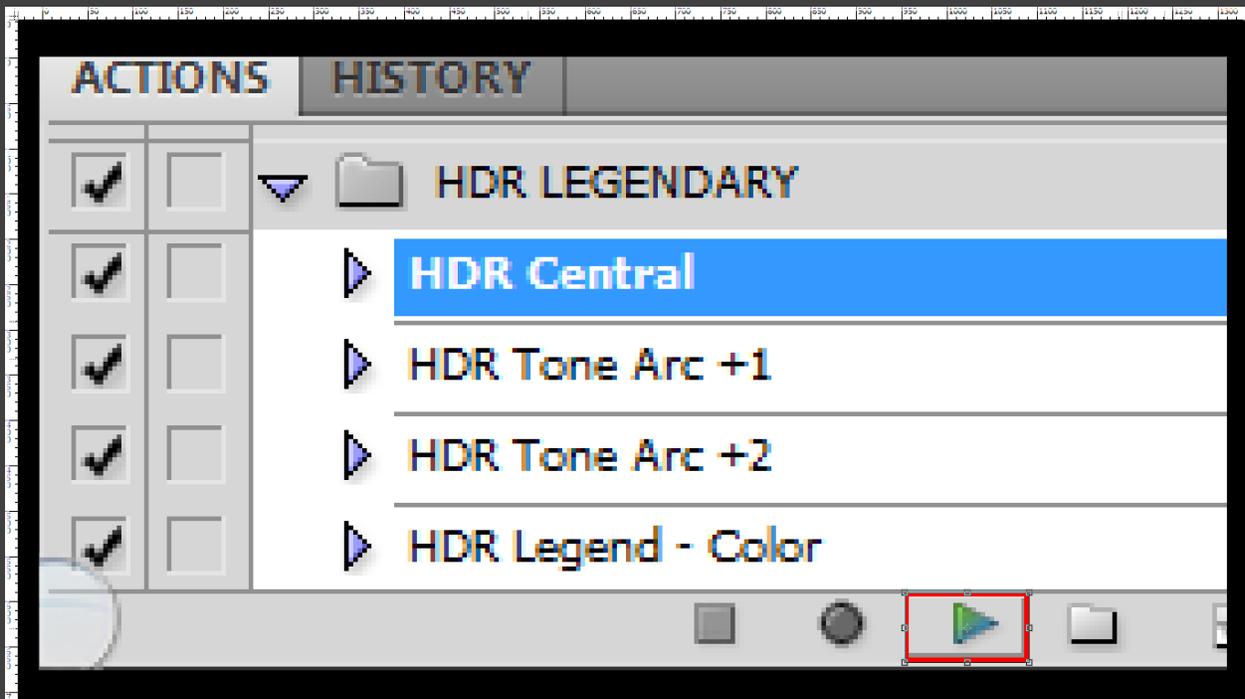

The Play Icon will appear at the icon side bar.

Click on the Play Icon to reveal the panel. Once the panel is open, you will see the loaded action.

Go ahead and click on the Action you wish to render the effect and press the 'Play Icon' to start rendering.

That will be all!

Enjoy!

Thank you for the purchase. If you have any question, leave a message on the comment box or email me from my profile and I will get back to you as soon as possible. Godbless and Enjoy!
