

2015 Poster-calendar template

Editing Template

The template has two pages. One in landscape design, the other with a portrait.

At each orientation, there are two types of design - black and white. To switch between them simply switch the different layers in the layers window (window> layers).

Also, each design has several options calendar grid: Sunday at the beginning of the week, Sunday at the end of the week, Sunday highlighted in red, Sunday is the same color as the rest of the days, but are shown in bold. To switch between them also switch the different layers in the Layers window

Editing background photos

1. Select the desired file .psd. Open it with Photoshop.
2. Right-click on the layer you want to edit> Edit content.
3. When the new .psd file opens, paste your image and save the file.
4. Those changes will be reflected upon returning to your main .psd file.
5. Save the main .psd file.
6. In InDesign in the links (window> links) double click on the icon with an exclamation mark to update the link.

Thanks, you are the Best!
