Hi dear purchaser

thank you for purchasing this item, I appreciate great buyers like you, I hope you will leave a feedback, In addition to your positive feedback, we hope you will give me FIVE STARS, if you feel like I fell short of FIVE STARS, please email me first and I will make sure you are happy.

this is **9 electric glowing effect actions**

You can apply it to any of your own fonts or objects.

you can see the preview in big size here:

http://fc09.deviantart.net/fs71/f/2014/027/6/3/untitled_1_by_simoke820-d740zhq.png

Steps

- 1- open photoshop
- 2- go to electric glowing text effects.asl and make double click.
- 3- go to electric glowing text effects.atn and make double click.

Notice !

- if you want to apply this action to a text , you have to make each letter separatly, and assemble them on one document.
- the resolution of your document shoud be in 72 dpi (72 pixel/inch) !
- this action works only on black backgrounds !
- make the font size on 700 pt to have a great result

I advice you to see this tutorial to know how to use :
