INSTALLATION INSTRUCTIONS

HOW TO INSTALL PHOTOSHOP ACTIONS?

\# Download the ZIP file and extract the contents.
You will find the Photoshop Action .ATN file(s) there.

\#\#\# There are multiple ways to go about installing Photoshop Actions:

 # METHOD 1:
Browse to your Photoshop folder, enter the Presets folder and then the Actions folder.
Once you are in the Actions folder, copy paste the .ATN file there (or you can drag and drop the .ATN file).

 # METHOD 2:
In Photoshop, go to the Window menu and open the Actions panel.
Click the flyout menu on the upper right corner of the Actions panel and select Load Actions …
Now navigate to the Action(s) file you want to load, select it and click Load.

HOW TO USE PHOTOSHOP ACTIONS?

\# Open an image in Photoshop..
\# Select the layer you want to apply the action to.
\# Select the action you want to use from your action panel.
\# Hit the "play" button down at the bottom of the panel.
\# You are done!
