

WORK WITH ACTION FILE

Double click on **Brush ABR** and **Artisto ATN** file to install in photoshop.

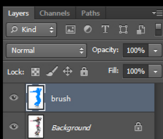

Place your images in photoshop.

Create new layer named "brush" and paint →

After paint done be sure selected background layer

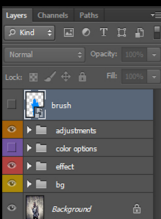

Click Alt+F9 to open Action menu

Select Action and press play

After action finish your layers looks like this

Open folder and play with layers, change color, opacity to better result on your photo

IMPORTANT : If you have previous installed brush with the same name as these please rename it !

Be sure your photoshop set to RGB color , 8Bits/Channel , English version.
